Program details

Do you know that microaggression in the workplace can negatively affect job satisfaction and stunt employee performance? A panel led by Dr. Lisa Werkmeister Rozas, previous MCBA guest for a sold-out presentation, will walk participants through understanding and recognizing their own implicit biases and microaggressions that can impact how they are perceived by co-workers, clients, judges and opposing counsel. Speakers will discuss implicit bias and common expressions in race, gender, socioeconomic background and age.
